FELLOWSHIP & SERVICE

our main goals are:

Fellowships:
shared passions,
lasting friendships.

 To make the sea a means of strengthening Rotary principles, relationships, and community

 To combine commitment with enjoyment, promoting culture, sports, and solidarity

 To foster knowledge and protection of the sea through educational and environmental programs

 To engage the new generations in healthy and formative activities, developing values of responsibility and respect for the Planet

The Rotary Fellowship of Sea Lovers

represents an extraordinary and innovative model of Fellowship and service:

- It unites passion, friendship, and responsibility
- it values the commitment of members and communities
- it spreads the culture of the sea as a means of inclusion, growth, and sustainability

At sea there are no walls: only collaboration, trust, and respect.
This is the spirit we want to share through our Fellowship.
